

At page 11, line 1 rewrite the following paragraph:

b4
In alternative embodiments of the present invention, the textured film may be formed into other devices such as a mitt such as that illustrated in FIG 20; a glove such as that illustrated in FIG 18; a cloth such as that illustrated in FIG 19; strips/appendages of textured film attached to a holding means, such as that illustrated in FIG. 10; and a device wherein the combination of at least one layer of textured film disposed on top of a secondary substrate is attached to a holding means such as that illustrated in FIG. 11. Examples of suitable secondary substrates include the textured films as well as any of the aforementioned substrates capable of giving the device 10 rigidity. Examples of holding means include all of those aforementioned. The textured film layer may be on top of the holding means, such as that illustrated in FIG. 11 or may extend from the holding means, for example, as a pad, such as that illustrated in FIG. 12, or any combination thereof (not shown). Any of the above-mentioned securing means may be used to secure the layer(s) of textured film, the secondary substrate, and the holding means together.

In The Claims:

Please amend claims 25, 26, 27, and 28 as follows:

b5
19 25. (Twice Amended). The device of claim 24 in the form of the mitt, the cloth, or the glove, having a first side and a second side, wherein at least one of the sides is comprised of a three-dimensional textured film.

20 26. (Amended) The claim 25 wherein at least the first side has protuberances facing outward.

21 27. (Twice Amended) The device of claim 25 wherein the open area of the three-dimensional textured film on the first side is different from the open area of the textured film on the second side.
